Zoom cable modem 3.0 model 5341j

An SEC filing is a document submitted to the U.S. Securities and Exchange Commission (SEC). Public companies and certain insiders are required to make regular SEC filings. The filings are available through the SEC's online database. By making a selection below, you will be leaving the Minim website. Minim makes no representations whatsoever about any other website, which you may access through this one. When you access a non-Minim website, even one that may contain the Minim logo, please understand that it is independent from Minim, and that Minim has no control over the content on that website. In addition, a link to a non-Minim website does not mean that Minim endorses or accepts any responsibility for the content, or the use, of such website. Image not available forColour: To view this video download Flash Player If your 5341J (5341-00-00J) router is not working as it should, dropping connections or not being responsive, you should first do a reset of the router to see if the problems persist. Other scenarios where you might want to reset your router is if you've forgotten the password or misconfigured it and can't get access anymore. You can reset your Zoom 5341J (5341-00-00J) in the following way(s): The 30-30-30 reset There are no specific instructions for this model yet, but you can always do the 30-30-30 reset as follows: When router is powered on, press the reset button and hold for 30 seconds. (Use a paper clip or something sharp) While holding the reset button pressed, unplug the power of the router and hold the reset button for 30 seconds While still holding the reset button down, turn on the power to the unit again and hold for another 30 seconds. This process usually works for resetting any router to it's factory setting. Note: It is worth reading more about how to reset routers with the 30 30 30 reset and what the risks and considerations are when resetting your router this way, instead of just rebooting it.
